RE: Site Inspection, Rainbows End Project, S/053/032, Washington County, Utah

Date of Inspection: July 21, 1994

Time of Inspection: 1400-1430

Conditions: Sunny and Hot

Participants: Larry Gore, BLM; Travis Jones and Lynn Kunzler, DOGM

Purpose of Inspection: To examine recent mine development work

This operation was originally noticed as an exploration project. The Division received word that ore was being removed from the mine and subsequently categorized this operation as a small mining operation. A Notice of Intention to Commence Small Mining Operations was sent to Mr. Steven W. DeLong, the mine operator, on July 15, 1994.

Two portions of the pre-existing access road have been re-routed. These new road segments are a combined length of approximately 1/2 mile. The access road is approximately 15 feet wide.

The adit and surrounding disturbance is less than 1/2 acre. Photographs were taken of the adit and surrounding area and of the access road. No major concerns were observed at this inspection.
